

Urine Adulteration Test Strips (DUC-111)

One Step Specimen Validity Test Strips provide rapid, semi-quantitative detection of 7 parameters (Creatinine, Nitrite, Glutaraldehyde, pH, Specific Gravity, Oxidants/PCC). As drug testing becomes more prevalent, the frequency of specimen tampering increases. One Step Specimen Validity Test Strips answer this by providing immediate evidence of potential adulteration.

- 7 testing parameters
- Easy to interpret color chart
- 2 year shelf life
- 1 minute read time
